FILE FORMATS

Format: PDF preferred or Adobe CS5 Design suite files.
- Outline all fonts and supply all linked files
- Ratio: 1:10 (10% of final size)

FILE SETUP

When designing art for each of the 3 sides of a Bike Board you can either include a minimum 50mm gutter in between each panel or have distinct panels which join up on each apex. Both can look great! Please contact our team if you would like to see examples of each design approach
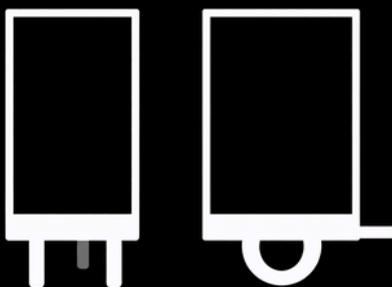

- Include 5mm of bleed (50mm at final print size)
- All images should be min 300dpi when placed.
- Convert all fonts to outlines
- All print / trapping options should be turned off
- Do not use ASCII encoding for EPS files, use Binary only
- All files must be supplied CMYK not RGB
- Set all solid black to C 20% M 20% Y 20% K 100%

DECALS

Want extra branding ? No problem, we can apply decals directly to the capping at the top as well as the back and sides of the Bike Boards at the base. Contact our team for more information.
